## Advice

During the 2019–2024 accreditation period for VCE Industry and Enterprise, examinations will be prepared according to the examination specifications above. Each examination will conform to these specifications and will test a representative sample of the key knowledge and key skills from all outcomes in Units 3 and 4, and the content found in the section 'Characteristics of the study' in the study design (pages 9–12).

Examination questions may relate to one or more areas of study. The weighting of examination questions will reflect approximately the weighting of the outcomes in the study design.

Students should use command/task words, other instructional information within questions and corresponding mark allocations to guide their responses.

A separate document containing sample questions has been published on the VCE Industry and Enterprise 'Examination specifications, past examinations and examination reports' page on the VCAA website.

The sample questions provide an indication of the types of questions teachers and students can expect until the current accreditation period is over.

The VCAA does not provide answers to sample questions.
