Sample Questions

Written Examination – End of Year

Section A – Multiple-choice questions

Question 1

The most important reason glasses are washed in a glasswasher and not in a dishwasher in the kitchen is because

- A. the formulation of the glass-washing detergent prevents streaks and spots on glasses.
- B. the food scraps in the dishwasher would contaminate the glasses in the wash cycle.
- C. the food preparation area would be contaminated if the glasses break.
- D. the glasses will not fit in the dishwasher racks.

Question 2

The beverage attendant is cleaning a blender and has separated the jug from the base, as shown in the image below.

The next step to clean the base of the blender involves

- A. immersing the base in water.
- B. running hot water over the base.
- C. wiping the base with a tea towel.
- D. wiping the base with a clean, damp cloth.

Question 3

To clean bar tables hygienically during drinks service, while customers are present, the beverage attendant should

- A.** use both a wet cloth and a dry cloth.
- B.** spray chemical cleaner directly onto the table.
- C.** use a cloth pre-sprayed with chemical cleaner.
- D.** take a tub of warm water and a cloth to the table.

SAMPLE

Section B

Question 1 (4 marks)
