

DEECD VEYLDF

Professional Development Program

Professional Development on the Victorian Framework will be delivered in four modules. Each module of the professional development will include an opportunity for professionals to:

- Consider the underpinning theory of the concept
- Explore their own views and assumptions
- Reflect on the values and expectations of the children and families in their setting

Topics included in the modules will include getting started with the Victorian and National Frameworks, reflective practice, collaborative practice, principles, practices and outcomes, and curriculum decision making.

Modules are designed to be attended in sequence and build on learnings from the previous module. As such, participants would benefit from attending all four modules.

Sessions will commence in Term 2, 2010 and be completed by Term 2, 2011. All four modules will be delivered across the state including metropolitan, regional and rural areas.

**Online Registrations due to open
in approx. 3-4 weeks for
