SROEQO008A	Determine nutritional requirements for horses 45		✓		
VPAU323	Relate equine form and function 50				✓
VPAM325	Equine anatomy and physiology 40				✓
		<i>Allocation of nominal hours:</i>	45	90	90

Notes:

1. You need to select three tasks to cover all units of competency. Reading down the columns, the ticks indicate which task each unit of competency has been assigned to.
2. You may select two tasks of the same type, but not three. For example, a student could complete two Work Projects but could not do a third Work Project.
3. The assessment of a unit of competency cannot be split between two tasks.
4. Decide on task allocation after considering the units of competency and the scoring criteria for each task. This will help you to choose the task type that gives students most scope for demonstrating their achievement of the units of competency.
5. The allocation of nominal hours across tasks should be as equally as weighted as possible.
6. **No task for VCE VET Equine may account for more than 100 total nominal hours in the student's Units 3 and 4 sequence. A task accounting for more than 100 hours will not be acceptable.**
7. The VASS data entry number appears on the VASS screen where the Assessment Plan is entered. These numbers help identify the task against which the results are to be entered.
