

VCE VET MUSIC INDUSTRY

The VCE VET Music Industry program provides students with the knowledge and skills that will enhance their employment prospects within the music industry. Certificate II in Music Industry provides broad based knowledge and skills required for entry into the music industry. The Certificate III qualifications offer specialist training in either performance/composition or technology.

What qualification will I receive?

If you satisfactorily complete the VCE VET Music Industry program, you will receive the CUS20101 Certificate II in Music Industry (Foundation), CUS30101 Certificate III in Music and/or the CUS30201 Certificate III in Music Industry (Technical Production). These nationally recognised qualifications are issued by the Registered Training Organisation (RTO).

What will I learn?

The VCE VET Units 1 and 2 core units of competence include developing and updating music industry knowledge and following health, safety and security procedures. Elective units include laying sound tracks, installing, aligning and testing sound equipment and planning a career in music.

The VCE VET Music Units 3 and 4 sequence incorporates units such as preparing self for performance and extending technical skills in performance.

The VCE VET Music Industry Units 3 and 4 sequence incorporates units such as operating a sound mixing console and editing sound using digital systems.

What credit will I receive towards my VCE or VCAL?

VCE

Students may study programs individually or in combination with other VCE VET Music programs. The maximum credit available to students who complete all three Music programs is eight VCE VET units: four units at Units 1 and 2, and two Units 3 and 4 sequences.

VCAL

The VCE VET Music Industry program (either partial or full completion) may contribute at the Foundation, Intermediate or Senior levels.

What career and/or employment opportunities will I have?

The Certificate III in Music incorporates industry elements such as performance, critical listening, music management and music promotions. The Certificate III in Music (Technical Production) incorporates industry elements such as sound track laying, digital editing and mixing, audio visual equipment operations, public address systems and stage management and can be applied to workplaces such as stage productions, radio and medium to large recording studios, among others.
