

2010 VCE Music: Group performance

Units 3 and 4 Prescribed list of arrangements

This list is revised and published annually. Students undertaking Music: Group performance must include two works from this list in their end-of-year performance examination program.

Study design requirements

In the VCE Music Group performance study, students are required to perform two (2) works from a prescribed list of arrangements published by the Victorian Curriculum and Assessment Authority (VCAA) as part of the end-of-year performance examination program. Details of this requirement are described on pages 58–61 of the *Music VCE Study Design* (2006–2009, extended to 31 December 2010). Students must select **one** of the following options:

- perform two works in the styles in which they are listed
- perform one work in the style in which it is listed and another listed work in any one of the other Section A listed styles
- perform two notated arrangements from the Section B list
- perform one notated arrangement from the list and another listed work in any one of the Section A listed styles.

All groups are required to perform in a range of styles to satisfy Units 3 and 4 Outcome 1 requirements and the end-of- year performance examination criteria.

The prescribed list of arrangements

Section A

Arrangements in Section A are listed by performer and following each title details of CD recordings are provided as a guide to groups in determining the form and style of their performance. Section A is divided into six (6) style categories. Students may perform one or two works from Section A in the listed styles or they may perform one work in the listed style and another work in another listed style. For example, students might perform ‘Who Knew’ by Pink, and ‘Here Comes Your Man’ by the Pixies as Rock/Pop songs or they might perform ‘Who Knew’ as a Rock/Pop song and ‘Here Comes Your Man’ in a Soul style. Groups may develop their own interpretation of the two works they select from the list within the conventions of relevant styles. In preparing their performance of works in Section A students may also use notated sources such as transcriptions or lead sheets. As the notation for many contemporary works is lacking in detail and in many cases does not accurately reflect the style of the work it is recommended that groups use notated sources in conjunction with a recording of the arrangement.

Groups selecting works from Section A should be aware that songs listed in Section B must not be selected as 'prescribed works' unless the written arrangement can be realised in full. For example, an SATB choral arrangement of 'Back in the USSR' is included in Section B and must be performed as such if being presented as a 'prescribed work'. Groups who wish to play this work in a different form can do their own arrangement but cannot include it on their end-of-year examination program as a 'prescribed work'.

Section B

Section B is divided into seven categories based on instrument groupings and works are listed by composer and/or arranger. Works selected from this section of the list must be performed as notated. Instrumentation may be changed but all parts must be realised as notated. Parts may not be omitted or simplified. For example, a work for woodwind quintet might be performed by flute, two clarinets, bassoon and horn with the oboe part transposed for clarinet but the oboe part may not be omitted.

In Section B, following the title of each work publication details are provided. Some notated works are published by different publishers and editions should be checked to ensure that they are the same as those listed here. If a different edition is being used, the two editions should be compared to ensure that they are of an equal degree of difficulty. Where the works are published both as single-title sheet music and as part of an album, either version may be used. Where no publication details are provided, any recognised edition is acceptable.

Revisions

This list is published annually. Teachers and students should refer only to the list for the current year when selecting works for performance. Please note that some works from some categories in Section A and Section B of the 2009 list have been deleted. Other works have been added to both Section A and Section B.

Alternative works

Students who wish to select arrangements other than those listed as the 'prescribed arrangements' required for the examination program should submit an application to the VCAA on the official form for individual approval. The official form can be downloaded from <www.vcaa.vic.edu.au>. In requesting permission to perform an alternative arrangement, applicants will need to:

- provide details of the alternative arrangement – through a recording of the work and/or sheet music or chart as appropriate
- outline grounds for the application. Suitable grounds may include groups performing in a style not included in either Section A or Section B, for example a balalaika trio performing folk music.

The completed application form must be submitted to the VCAA before the closing date in the year the student is completing Units 3 and 4 Music: Group performance. In 2010, the **closing date for applications will be Friday 5 March**. Proposals for alternative works/arrangements must be made annually. Acceptance of any particular arrangement in one year does not ensure automatic acceptance of the same arrangement in future years.

Section B

These arrangements are listed by composer and/or arranger.

Works selected from this section of the list must be performed as notated. Instrumentation may be changed but all parts must be realised as notated. Parts may not be omitted. For example, a woodwind quintet consisting of flute, oboe, clarinet, bassoon and bass clarinet (rather than horn), will need to transpose horn parts from selected works for performance by the bass clarinet. Care should be taken, for example when changing instrumentation, to retain the integrity of each part and the work as a whole. Where parts are changed significantly, an application should be to perform this revised version as an 'Alternative Work'. Information about 'Alternative Works' is provided on the VCAA website <www.vcaa.vic.edu.au>. Where a work is performed in a way that is inconsistent with the original, it will not be regarded as a performance of a prescribed work. Realising parts for works in Section B may involve use of ornamentation, embellishment and/or improvisation as appropriate to the style and/or as indicated on the score.

Where no publisher is listed, any recognised edition is acceptable. Works marked with an asterisk (*) have been identified as being currently unavailable from the listed publisher although other recognised editions may be available.
