

VCE VET APPLIED FASHION DESIGN & TECHNOLOGY

The VCE VET Applied Fashion Design and Technology program aims to provide students with an introductory overview of fashion design. Students are provided with the opportunity to acquire and develop skills in sewing, design processes, working with patterns and applying quality standards.

What qualification will I receive?

If you satisfactorily complete the VCE VET Applied Fashion Design and Technology program you will receive the LMT21707 Certificate II in Applied Fashion Design and Technology and a statement of attainment of selected units of competence from the LMT31407 Certificate III in Applied Fashion Design and Technology.

What will I learn?

The VCE VET Units 1 and 2 core units of competence include occupational health and safety, quality standards, using a sewing machine, sewing components, modifying patterns, drawing and interpreting basic sketches.

The VCE VET Unit 3 and 4 sequence incorporates a core unit of competence - identify fibres and fabrics - and elective units such as fabric performance and handling, garment repairs and alterations, basic patternmaking principles, preparing design concept and marketing design concepts.

What credit will I receive towards my VCE or VCAL?

VCE

You will be eligible for credit for up to six VCE VET units toward your VCE: four units at Units 1 and 2 level and a Unit 3 and 4 sequence.

VCAL

The VCE VET Applied Fashion Design and Technology program (either partial or full completion) may contribute at the Foundation, Intermediate or Senior levels.

What career and/or employment opportunities will I have?

The VCE VET Applied Fashion Design and Technology program provides an introductory overview of fashion design which may lead to employment opportunities producing fashion products where a basic understanding of design skills is required. It is particularly suitable for those who are self-employed and involved in low volume production (eg for markets, repairs and alterations).
