Solo performance examination

Monday 3 October to Sunday 30 October 2016
GUIDELINES FOR STUDENTS AND TEACHERS

Performance examination conditions
1. The examination will be set and assessed by panels appointed by the VCAA.
2. VCAA examination rules will apply. Details of these rules are published annually in the VCE and VCAL Administrative Handbook.
3. The performance examination venue is organised annually by the VCAA.
4. The solo performance will be presented as a single uninterrupted performance and last not more than seven minutes.
5. If a performance exceeds the prescribed time limit, the student will be asked to stop. A timing device will indicate when the seven minutes have elapsed.
6. A total of 10 minutes per student will be allocated for preparation, performance and clearing the space. No additional time is allowed. Students should be mindful of these time restrictions when preparing stagecraft for the solo performance.
7. The performance will use a single clearly lit space. No changes to the lighting grid are permitted.
8. Only two chairs will be provided in the examination room for students to use in the performance, if they wish. Any additional properties, if required, must be carried into the examination room by the student alone and within the allotted time.
9. In the examination room, the health and safety of both students and assessors is paramount. Students are advised that they must not endanger, or be seen to endanger, either themselves or others. Students are not permitted to bring into the examination room:
   • any objects or substances (including aerosols) deemed harmful, hazardous or illegal
   • actual or imitation weapons of any description, including swords, daggers and knives of any type
   • open flames, including candles and matches.
   Students are not to use any materials, objects or substances in their performance that may cause, or that may be deemed to cause, injury to themselves or others.
   In some cases, an object, material or substance that may be considered safe by the student may, in the actual performance, be considered hazardous. Consequently, careful thought must be given to the selection of properties and set items. Students are advised that if the use of any material, object or substance is deemed by any assessor to be potentially dangerous or hazardous, the student will not be permitted to use it. The decision of the assessors will be final.
10. Students must ensure that any properties, costumes (including footwear) or other aspects of their performance do not, in any way, damage the performance space. Students are responsible for the cleaning up and removal of any materials they bring into the space for their examination, by the end of their allotted examination time.
11. Students will be allocated an examination room at the performance examination venue in which they will undertake their examination. Students and their teachers are not permitted to request a change of room.
12. Only the panel of assessors and any personnel authorised by the VCAA will be permitted in the examination room with the student during the examination.
13. Students may choose to perform to the assessors as audience, to an imagined audience, or both.
14. Students must not walk behind and/or touch and/or approach the assessors during the examination.
15. The assessors’ table is for assessment purposes only. Students are not to place objects on the assessors’ table or use the table in any way as part of their performance.
Statement of Intention

1. A Statement of Intention form is published on page 20.

2. Immediately prior to their performance, students are required to present three copies of the Statement of Intention to the panel of assessors. The statement should not exceed 100 words.

3. The purpose of the Statement of Intention is to highlight aspects of the student’s interpretation that they would like to bring to the assessors’ attention. This may include:
   • an explanation/clarification of decisions made in the student’s interpretation of the prescribed structure
   • reasons for choices made (for example, for the use of costume, properties, accent, symbol)
   • where and how a specific convention, element or dot point is demonstrated in the performance.

4. Students should not simply describe their character by rewriting the performance focus.

5. The Statement of Intention will not be assessed.
Advice

1. Students are required to prepare a solo performance using one of the following 10 prescribed structures. Marks will not be awarded for performances that do not use one of the prescribed structures.

2. Each prescribed structure is composed of the following: character, stimulus, performance focus, performance style, convention, dramatic element and reference material. The following explanations should be used when preparing the solo performance:
   - **Character** – the main character to be depicted in the performance
   - **Stimulus** – the source of information that must be used in the development of the character and must be evident throughout the performance
   - **Performance focus** – information that provides a context for the character
     Students are required to present this information in their performance, incorporating the specific details that are identified in the three dot points and in the opening sentences.
   - **The three dot points (DP)**
     - DP1 begins with the word **recreating** and requires students to present material that is researched directly from the stimulus.
     - DP2 begins with the word **creating** and requires students to invent material that might or could have happened.
     - DP3 requires students to move beyond the stimulus and to respond to the scenario outlined using imagination and creativity.
   - **The opening sentences**
     - provide background to the character
     - indicate where and/or when the performance takes place
     - establish the audience
     - provide insight into the emotional state or motivation of the character.
   - **All aspects of the performance focus must be included in the performance.**
     Each aspect of the performance focus does not have to be given equal emphasis during the performance.
     Unless otherwise indicated, aspects of the performance focus may be performed in any order.
   - **Performance style** – All performance styles referred to in this examination are examples of non-naturalism. In some structures, a specific style is prescribed. Performance styles are explained in the ‘Terminology’ section of the examination materials and on each prescribed structure where an additional style is listed. The prescribed style(s) must be used throughout the performance. Where features are listed for a particular non-naturalistic style, students can use some or all of the features listed, as appropriate to their performance.
   - **Convention** – The following conventions will be assessed in all performances: transformation of character, time, place and object. In addition, one convention will be specifically prescribed for each character and it must be used during the performance. Other conventions may be added as appropriate.
   - **Dramatic element** – One dramatic element will be prescribed for each character and it must be used during the performance. The dramatic element to be prescribed will be selected from the following list: climax, conflict, contrast, mood, rhythm, sound, space, symbol and tension. Students may use additional elements as appropriate.
   - **Reference material** – Students should undertake research when developing their character(s) for performance. Resources are provided as recommendations; this list is not exhaustive.
     Note: If a resource is also listed under Stimulus, it must be used in the development of the character and as mandated in DP1. The resource must be evident throughout the performance.

3. The emphasis in performance must be on action rather than narration; ‘doing’ rather than ‘telling’. For additional advice, refer to last year’s Examination Report.

4. A ‘Terminology’ section is provided. Students should consult this for explanations of performance styles and conventions, as prescribed in the examination. Where an additional performance style is listed, a definition is included in both the prescribed structure and in the ‘Terminology’ section of the examination.
Notes for VCE Drama solo performance examination

1. While the VCAA considers all the prescribed structures suitable for study, teachers should be aware that, in some instances, sensitivity might be needed where particular issues or themes are explored. To provide appropriate advice to students, teachers should ensure that they are aware of the issues and themes that are contained in the structures prior to the commencement of Unit 4.

2. Schools should check the local availability of required stimulus materials and resources prior to beginning Unit 4. Some materials may not be immediately available.

3. Students and teachers should be aware that websites, including Wikipedia, may contain information that has been altered since the publication of the examination materials.

4. It is the VCAA that provides the advice and requirements of the solo performance examination. Students are advised to refer to the examination throughout the development of their solo performance. Caution should be exercised when using information on social media or blogs.

5. Reading from a script does not constitute a performance and will be considered off-task.

6. Where a plural is used, two or more moments/examples must be evident unless a specific number is stated.

7. A moment/example can be represented as a scene, dramatic image, montage or vignette, or combinations of each.

8. For additional advice, students are advised to refer to last year’s Examination Report.

9. Students and teachers are reminded that, in addition to the one convention prescribed in each structure, transformation of character, time, place and object must be demonstrated in every solo performance.

10. When making solo performance choices, all characters must be portrayed in the gender identified in the prescribed structure.

11. All enquiries regarding the prescribed structures should be forwarded to Helen Champion, Curriculum Manager <champion.helen.h@edumail.vic.gov.au>.

12. All other enquiries should be forwarded to Glenn Martin, Project Manager, Assessment <martin.glenn.w1@edumail.vic.gov.au>.

*Non-naturalistic
Non-naturalism is a broad term for all performance styles that are not dependent on a life-like representation of everyday life. It is based on the work of Antonin Artaud (Theatre of Cruelty), Bertolt Brecht (Epic Theatre) and Jerzy Grotowski (Poor Theatre). Non-naturalistic performance can occur in any space and is not dependent on specific resources. Non-naturalistic performance work might include the manipulation of both naturalistic and non-naturalistic conventions.
A non-naturalistic performance may be defined by the non-naturalistic:
• use of stagecraft
• acting style of the performers
• use of dramatic elements
• use of conventions, including transformation of character and/or time and/or place and/or object.

It is based on the work of Antonin Artaud (Theatre of Cruelty), Bertolt Brecht (Epic Theatre) and Jerzy Grotowski (Poor Theatre). Non-naturalism can allow an actor to explore and present ideas or stories conceptually.

• use of dramatic elements
• use of conventions, including transformation of character and/or time and/or place and/or object.

Create

To create is to enact for an audience situations and conversations that may be informed by material other than the stimulus, such as reference material. The emphasis in the performance must be on action rather than narration; ‘doing’ rather than ‘telling’.

Recreate

To recreate is to re-enact situations and conversations that are informed by the stimulus. The emphasis in the recreation must be on action rather than narration; ‘doing’ rather than ‘telling’.

Actor as chorus

Actor as chorus is where a single actor fulfils the dramatic purpose of a chorus and often stands outside the action of a scene or moment/example. The actor can do this by:
• commenting on the background of a moment/example
• making statements or providing facts that encourage the audience to view the moment/example from the perspective of the real world
• arguing with a character about their decisions or beliefs.
To do so, an actor as chorus may use heightened movement and language.

Caricature

Caricature is an exaggeration of a character that is often ludicrous or grotesque. It can be comic, at times derogatory, with the intention to ridicule.

Climax

Climax refers to the most significant moment of tension or conflict in a drama, often occurring towards the end of the plot. Multiple climaxes and/or an anticlimax can also occur. The action of a drama usually unravels after the climax has transpired, but the work might finish with a climactic moment.
Comedy
Comedy is a performance style that is associated with amusement, fun and humour, and is intended to entertain, delight or invoke laughter. It is exemplified by:

• characters or situations that are often silly, ludicrous or absurd
• use of words, jokes or stories that have a punchline
• use of parody, caricature, visual or physical gags and other comedic styles
• use of references to current events, famous people or politicians
• use of costume or properties to enhance comedy.

Conflict
Conflict generally occurs when a character cannot achieve an objective due to an obstacle. This obstacle may be internal or external – between characters or between characters and their environment. Conflict can be shown in a variety of ways, for example through physical, verbal or psychological means. Conflict can be embedded in the structure of the drama.

Contrast
Contrast presents the dissimilar or the opposite in order to highlight or emphasise difference. Contrast can be explored in many ways, and can include contrasting characters, settings, times, themes, elements, stagecraft and performance styles.

Epic Theatre
Sometimes called Brechtian theatre, Epic Theatre is a style of theatre that seeks to tell a story, often on a large historical scale, and including a number of people and events over time. It aims to engage the intellect rather than emotions and often uses devices that alienate the audience. It is exemplified by:

• use of signs
• use of mask and movement
• creation of a large range of characters, often transformed using minimal costume or properties
• stylised gesture and movement
• deliberate and conscious choices intended to remind the audience that they are watching a play.

Exaggerated movement
Exaggerated movement includes action that is overstated or drawn larger than life; often for the purpose of ridicule.

Heightened use of movement and language
Heightened use of movement and language is the simultaneous use of poetic and stylised language and movement. It includes exaggerated and rhythmic movement and gestures, combined with the choice and expression of words and phrases whose vowel and consonant sounds, and their cadence, enhance the dramatic statement. It is closely associated with figurative dramatic techniques such as imagery, symbol, metaphor and analogy.

Japanese horror
Japanese horror is a literary and theatrical form (which can be traced back to the Tokugawa [Edo] period) that tells stories of revenge and ghostly appearances. It is exemplified by:

• plots that often explore the psychological aspects of horror and fear
• strong visual and theatrical imagery created through the use of costume, make-up, properties
• use of suspense, stillness and silence
• the appearance of a ghost.
Mime

Pathos
Pathos is a quality that evokes a feeling of sympathy, pity or sadness in the audience; for example, the power of stirring tender or melancholic emotion. Pathos may be associated with comedy and/or tragedy.

Physical theatre
Physical theatre is a style of performance that pursues storytelling through physical means. The primary focus is on the physical work of the actor through the use of the body. It is a highly visual form of theatre. It is exemplified by:
- use of mime
- use of acrobatics/circus skills
- commedia dell'arte
- visual theatre
- use of dance.

Puppetry is the use of an inanimate object, representational figure or moveable model animated or moved by an actor or puppeteer.

Rhythm
Rhythm is a regular pattern of sounds, words or actions. Performances can also have their own rhythm that can be influenced by the emotional nature of the plot, the pace of line delivery, the pace of scene transitions, and the length of those scenes and the dialogue within them.

Satire
Satire refers to the use of wit and comedy to attack, denounce or deride a target. It exposes or questions the presence of vice, folly, abuse or pretence. It can be achieved through the manipulation of language, caricature, parody, parable or other comedic theatrical conventions. The satirist laughs at, punishes or questions a target and/or an audience. The target may be an individual or a system.

Song
Song is a musical interpretation of text using an actor’s own voice at the time of performance (not pre-recorded).

Sound
Sound is created by a performer through the possible use of voice, body percussion and objects to create an effect in performance and enhance meaning. Sound may include silence or the deliberate absence of sound.

Space
Space involves the way an actor(s) uses the performance area to communicate meaning, to define settings, to represent status and to create actor–audience relationships. This may be achieved through the use of levels, proximity and depth. The use of space may be symbolic.
Stillness and silence
Stillness and silence are to be found where there is an absence of sound and an absence of movement. This technique is used to enhance dramatic effect.

Surrealism
Surrealism is an avant-garde arts and theatre movement associated with the early 20th century. It is exemplified by:
• dramatic structures that feature elements of surprise or unexpected juxtapositions
• use of unnerving and/or seemingly illogical scenes or dialogue and dream-like imagery
• strong use of symbols, properties, costume, make-up
• use of fantastic and/or grotesque characters.

Symbol
Symbol is used to create meaning that is not literal. Symbol allows performers to communicate ideas and themes through words, stagecraft and expressive skills.

Tension
Tension is the suspense that holds an audience’s attention as a performance unfolds. The release of tension can have a comic or dramatic effect.

Transformation of character
An actor manipulates expressive skills to create characters in performance. A change in character, therefore, requires modification of the focus and manner of use of expressive skills by the actor. Additions of mask or costume may enhance the character transformation, but this does not constitute transformation unless accompanied by communicable changes in the use of expressive skills.

Transformation of object
This occurs when an object(s) is endowed with a variety of meanings by an actor.

Transformation of place
An actor creates more than one place or setting during a performance and does so without the use of scenery. The actor can communicate transformation of place to an audience through the context that they create for the performance, and through the use of objects and space in symbolic ways. Transformation of place can be achieved through the transformation of properties (real and imagined) and/or through the use of expressive skills alone.

Transformation of time
Performances can move around in time as well as in place. Sometimes performances can occur in a linear or chronological timeline. Others move backwards and forwards in time from a central point.

Vaudeville
Vaudeville is a form and style of theatre entertainment that was popular with the lower classes from the 1880s until the 1930s. It was referred to as ‘music hall’ in Britain and consisted of a variety of brief acts that were introduced by a master of ceremonies. The acts could include:
• illustrated song, dance, active storytelling
• comedy, slapstick, repartee, clowning
• exaggerated acting, acrobatics.
