- Students are permitted to bring into the examination room: pens, pencils, highlighters, erasers, sharpeners and rulers.
- Students are NOT permitted to bring into the examination room: blank sheets of paper and/or correction fluid/tape.
- No calculator is allowed in this examination.

Materials supplied
- Question and answer book of 24 pages
- Answer sheet for multiple-choice questions
- Additional space is available at the end of the book if you need extra paper to complete an answer.

Instructions
- Write your student number in the space provided above on this page.
- Check that your name and student number as printed on your answer sheet for multiple-choice questions are correct, and sign your name in the space provided to verify this.
- All written responses must be in English.

At the end of the examination
- Place the answer sheet for multiple-choice questions inside the front cover of this book.

Students are NOT permitted to bring mobile phones and/or any other unauthorised electronic devices into the examination room.

SECTION A – Multiple-choice questions

Instructions for Section A
Answer all questions in pencil on the answer sheet provided for multiple-choice questions. Choose the response that is correct or that best answers the question. A correct answer scores 1; an incorrect answer scores 0. Marks will not be deducted for incorrect answers. No marks will be given if more than one answer is completed for any question.

Question 1
The type of unemployment caused by technological change is known as
A. cyclical unemployment.
B. frictional unemployment.
C. structural unemployment.
D. hard-core unemployment.

Question 2
Expansionary monetary policy is most likely to cause
A. a decrease in welfare payments.
B. an appreciation of the Australian dollar.
C. a reduction in the rate of economic growth.
D. an increase in the size of the budget deficit.

Question 3

A health warning stating that wearing a hat reduces skin cancer would be likely to change the equilibrium in the hat market, shown in the diagram above, from point A to point
A. B.
B. C.
C. H.
D. E.
Question 4
Of the following policy initiatives, which one is least likely to increase aggregate supply in the economy?
A. increased government spending on infrastructure
B. increased government spending on education and training
C. increased government outlays allocated to payment of unemployment benefits
D. a reduction in company tax rates

Question 5
The payment of dividends to overseas shareholders will appear in the balance of payments as a
A. credit in the capital and financial account.
B. debit in the capital and financial account.
C. credit in the balance of payments on current account.
D. debit in the balance of payments on current account.

Question 6
An increase in productivity is likely to
A. worsen Australia’s international competitiveness and increase inflation.
B. worsen Australia’s international competitiveness and decrease inflation.
C. improve Australia’s international competitiveness and increase inflation.
D. improve Australia’s international competitiveness and decrease inflation.

Question 7
Refer to the following aggregate demand (AD) and aggregate supply (AS) diagram.

Which one of the following is likely to cause a shift in the aggregate supply curve from AS₁ to AS₂?
A. a decrease in interest rates
B. an increase in production costs
C. an increase in government spending
D. an increase in profitability of businesses
Question 8
Consider the following data for an economy over a two-year period. The prices given reflect the average for the relevant year.

<table>
<thead>
<tr>
<th></th>
<th>Year 1</th>
<th>Year 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Index of export prices</td>
<td>100</td>
<td>96</td>
</tr>
<tr>
<td>Index of import prices</td>
<td>100</td>
<td>120</td>
</tr>
</tbody>
</table>

What conclusion can be drawn from the data above?
A. Between Year 1 and Year 2 the terms of trade improved.
B. Between Year 1 and Year 2 the terms of trade deteriorated.
C. Between Year 1 and Year 2 the terms of trade remained unchanged.
D. It cannot be determined if there has been a change between Year 1 and Year 2.

Question 9
Which one of the following would reduce the size of the Australian Government’s budget deficit?
A. company tax cuts
B. personal income tax cuts
C. increasing the rate of the goods and services tax (GST)
D. increasing the tax-free threshold for personal income tax

Question 10
The degree of price elasticity of demand is important to producers because it reveals how
A. responsive quantity demanded is to a change in price.
B. much of the product will be supplied at different prices.
C. responsive demand for a product is to advertising or promotional campaigns.
D. responsive quantity demanded is to a change in the level of consumer income.

Question 11
Which one of the following is not a feature of a perfectly competitive market?
A. Firms have ease of entry into and exit from the market.
B. Products sold in the market are homogenous.
C. Consumer sovereignty exists.
D. Resources are not mobile.
Question 12
When the economy is experiencing low rates of inflation and low rates of economic and employment growth, the Reserve Bank of Australia will be likely to
A. sell government securities in order to increase the cash rate.
B. sell government securities in order to decrease the cash rate.
C. purchase government securities in order to increase the cash rate.
D. purchase government securities in order to decrease the cash rate.

Question 13
Imagine the Australian Government’s budget is in surplus.
If the rate of economic growth were to slow, this may ultimately result in a
A. smaller surplus budget, as receipts rise and outlays fall.
B. budget deficit, as receipts rise and outlays fall.
C. larger surplus budget, as receipts rise and outlays fall.
D. smaller surplus budget, as receipts fall and outlays rise.

Question 14
Which of the following would be the most likely impact of an increase in inflation in the United States (US)?
A. an increase in US interest rates and a depreciation of the Australian dollar
B. an increase in US interest rates and an appreciation of the Australian dollar
C. a decrease in US interest rates and a depreciation of the Australian dollar
D. a decrease in US interest rates and an appreciation of the Australian dollar

Question 15
The following table indicates the quarterly Consumer Price Index (CPI) outcomes for a hypothetical economy.

<table>
<thead>
<tr>
<th></th>
<th>CPI</th>
</tr>
</thead>
<tbody>
<tr>
<td>June 2017</td>
<td>110</td>
</tr>
<tr>
<td>Sept. 2017</td>
<td>115</td>
</tr>
<tr>
<td>Dec. 2017</td>
<td>118</td>
</tr>
<tr>
<td>Mar. 2018</td>
<td>120</td>
</tr>
<tr>
<td>June 2018</td>
<td>121</td>
</tr>
</tbody>
</table>

With reference to the data in the table, the annual rate of inflation for the year ended June 2018 is
A. 5%
B. 8%
C. 10%
D. 11%
Question 1 (17 marks)
a. Distinguish between allocative efficiency and dynamic efficiency. 3 marks
b. Explain how a decrease in the price of a complement can affect the demand for a good.
Construct fully labelled demand and supply curves to illustrate your explanation. 4 marks

\begin{center}
\begin{tikzpicture}
% Add your demand and supply curves here
\end{tikzpicture}
\end{center}
c. Describe the difference between a movement along the supply curve and a shift of the supply curve. Construct fully labelled demand and supply curves to illustrate your description. 4 marks
d. Explain how either externalities or asymmetric information would result in market failure. 3 marks

c. ‘The Government is delivering on its fiscal strategy and budget repair, with the 2017–18 Mid-Year Economic and Fiscal Outlook (MYEFO) confirming the budget remains on track to achieve a surplus in 2020–21.’

Source: The Commonwealth of Australia

Explain one reason for the Australian Government’s rationale related to its fiscal strategy and budget repair, and its wish to achieve a surplus by 2020–2021. 3 marks
d. Examine the likely effect of one budgetary policy tax initiative announced in the 2018–2019 Budget on aggregate demand and on the achievement of one of the government’s domestic economic goals. 4 marks
e. Select one of the following aspects of budgetary policy:
   • research and development grants
   • subsidies
   • welfare reform policy
   Explain how the selected aspect is designed to influence aggregate supply and the achievement of one of the government’s domestic economic goals. This goal must be different from the goal examined in part d.  
   3 marks
Extra space for responses

Clearly number all responses in this space.
An answer book is available from the supervisor if you need extra paper to complete an answer. Please ensure you write your student number in the space provided on the front cover of the answer book. At the end of the examination, place the answer book inside the front cover of this question and answer book.
