VCE English as an Additional Language (EAL) 2017–2021

Aural and written examination – End of year

Assessment criteria

Section B will be assessed against the following criteria:

- knowledge and understanding of the text, and the ideas and values it explores, demonstrated appropriately in response to the topic
- development of a coherent analysis in response to the topic
- control of expressive and effective language, as appropriate to the task

Question 2 of Section C will be assessed against the following criteria:

- analysis of the use of argument and language to try to persuade
- control of the mechanics of the English language to convey meaning

Assessors mark Section B and Question 2 of Section C holistically, relating student performance to the published criteria and ranking students over the full range of marks available. Determination of the mark is assisted by the descriptors in ‘Expected qualities for the mark range’. These descriptors have been written to reflect the level of achievement expected at a particular mark or mark range. The descriptors are only a general guide; they do not necessarily match precisely the performance of an individual response. Both the criteria and the descriptors are fully explored and directly related to the range of student responses during the assessor training process.
