Qualifications: Victorian Certificate of Applied Learning

The Victorian Certificate of Applied Learning (VCAL) is a senior secondary certificate of education recognised within the Australian Qualifications Framework (AQF). The VCAL can include components of accredited Vocational Education and Training (VET) including Further Education (FE) qualifications from within the AQF, and VCE studies. The VCAL is accredited and issued at three award levels. Each has a Victorian Registration and Qualifications Authority (VRQA) State Register code. VET training is a compulsory requirement for completion of VCAL certificates at Intermediate and Senior level.

<table>

</table>

These codes may be used by some VCAL providers for funding purposes.

The qualification aims to provide the skills, knowledge and attributes to enable students to make informed choices about pathways to work and further education. Personal development, students’ interests and pathways for senior secondary students, in the context of applied learning, underpin the design of VCAL. The VCAL acknowledges this by developing knowledge and:

- employability skills that help prepare the student for employment and for participation in the broader context of family, community and lifelong learning
- skills that assist the student to make informed vocational choices within specific industry sectors and/or facilitate pathways to further learning.

Students enrol in a VCAL learning program at the level that matches their skills and abilities. A typical example may be a student starting at Foundation or Intermediate level in Year 11.

Nominal duration

Each of the three award levels has a nominal duration of 1000 hours, which typically is a mix of class time and independent learning. However, the nominal hours (including both scheduled and unscheduled contact hours) may vary when considering the specific needs of each student.

The three qualification levels provide flexible entry and exit points for a range of student abilities and interests and offer a clear progression for knowledge, skills and attributes.

The following information is a guide to help VCAL providers determine the general focus and award level of training. It must, however, be used in conjunction with the table in section 3.1, which outlines the curriculum options for meeting VCAL strand requirements.
VCAL levels

At Foundation level, knowledge and employability skills development is supported by a strong emphasis on literacy and numeracy skills and preparatory learning.

At Intermediate level, knowledge and employability skills development leads to independent learning, confidence and a high level of transferable skills.

At Senior level, knowledge and employability skills development leads to a high level of interpersonal skills, independent action and achievement of tasks that require decision-making and leadership.

Pathways

The VCAL is designed to develop and extend pathways for young people. On completion of the VCAL, students will be able to make informed choices about employment or education pathways. Meaningful pathways are created by linking student aspirations and future employment goals to the choice of accredited curriculum, as well as connecting VCAL learning programs to work and industry experiences and active participation in the community. Including curriculum from VET and FE in VCAL learning programs helps connect students with broader options for work, further education and active community participation.

Successful partnerships in the VCAL involve building a culture of collaboration and creating connections between schools, non-school providers and partner organisations. Being able to follow pathways that are created from these partnerships relies on strong, cooperative relationships and a shared understanding and commitment to:

- ‘learning that does not stop at the school gate’
- the values of technical and further education (TAFE) institutes, adult community education (ACE) organisations and schools, with easy movement between these sectors
- a ‘whole community’ approach that involves shared leadership, pooling of resources and expertise, and non-exclusive ownership of learning programs.

This is a possible pathway at Foundation level:

- Intermediate or Senior level VCAL
- apprenticeships and traineeships (school-based or full-time)
- Certificate I (or above) VET courses
- Certificate I (or above) FE courses
- employment.

This is a possible pathway at Intermediate level:

- Senior level VCAL
- completion of VCE
- apprenticeships and traineeships (school-based or full-time)
- Certificate II (or above) VET courses
- Certificate II (or above) FE courses
- employment.

This is a possible pathway at Senior level:

- completion of VCE
- apprenticeships and traineeships (school-based or full-time)
- Certificate II (or above) VET courses
- Certificate III (or above) FE courses
- Industry Pathways
- employment.
1 VCAL program components

A VCAL program must contain curriculum that can be justified against the purpose statements of each VCAL strand. A program must contain a minimum of two VCAL units and may also contain curriculum components from:
- additional VCAL units
- VCE studies
- VET-accredited curriculum or training packages or FE-accredited curriculum.

1.1 VCAL strands

VCAL learning programs must be designed to meet the VCAL course requirements, ensuring that the curriculum selected is consistent with the purpose statement of the curriculum strand at the award level.

Each student should be enrolled in a learning program that includes curriculum for developing Literacy and Numeracy Skills, Industry Specific Skills, Work Related Skills and Personal Development Skills. Each learning program should be designed to allow students to achieve the required credits and meet all course requirements, and be at the appropriate level.

To ensure that students are eligible to receive a VCAL certificate, providers should consult the table in section 3.1 and run the eligibility report in the Victorian Assessment Software System (VASS) as soon as possible.

Information on the four curriculum strands is published on the VCAA website. To ensure coherence in designing a VCAL learning program, selected curriculum components must closely align with the purpose statement of the appropriate curriculum strand.

Selecting curriculum for VCAL curriculum strands

Curriculum components for the VCAL can be selected from VCAL units, VCE units and accredited curriculum from VET including FE units of competency. Locally developed non-accredited curriculum, structured workplace learning programs, and community and youth programs provide the context for the achievement of VCAL units. Delivery strategies for units should be consistent with the VCAL delivery principles and requirements outlined in accredited course documents, VCE study designs or VCAL curriculum planning guides on the VCAL webpages.

1.2 VCAL units

A VCAL unit contains learning outcomes that are generic by nature and enable content to be developed and/or planned at the local level to suit the individual needs of students. Locally developed non-accredited curriculum and activities or structured workplace learning programs can contribute to the achievement of learning outcomes in a VCAL unit.

Each VCAL unit is 100 nominal hours in length, and each unit that is successfully completed contributes one credit towards the VCAL at the appropriate award level. The nominal hours include both scheduled and unscheduled time.

VCAL units are available at the three VCAL award levels (Foundation, Intermediate and Senior) to cater for the different needs, abilities and experiences of students.
The following VCAL units are available in 2020.

VCAL unit learning outcomes may be assessed in the context of programs that include community, school-, work- and sports-based projects or activities. More information about assessment is provided on the VCAL curriculum webpage on the VCAA website.

2 Entry to VCAL studies

There are no formal entry requirements for VCAL studies. The VCAL has been designed to accommodate flexible entry and exit. Students can enter at the appropriate level of VCAL to suit their learning needs, abilities and interests. Parameters for entry and exit in schools will be determined by school regulations and enrolment guidelines. If a provider that is not a school delivers VCAL, flexible entry and exit points will be determined by the policies and regulations of that education provider.

Students with particular needs may require additional resources to enable the successful completion of the learning program. Some students may require additional time to achieve outcomes. Students can gain more than one VCAL qualification in their post-compulsory education program, depending on their abilities and learning goals.

3 Eligibility for award of the VCAL

3.1 Course requirements

To be awarded any VCAL qualification, students must successfully complete a learning program that contains a minimum of 10 credits and includes:

- curriculum components that can be justified against the purpose statement for the Literacy and Numeracy Skills Strand*: one credit is required for Literacy Skills and one credit is required for Numeracy Skills
- curriculum components to the value of at least one credit that can be justified against the purpose statement for each of the Work Related Skills Strand, Personal Development Skills Strand and Industry Specific Skills Strand
- a minimum of two VCAL units, one must be a VCAL Personal Development Skills unit at level.
- curriculum components to the value of six credits at the level of the VCAL award or above: one of which must be for Literacy Skills.

*Note: If using VCAL units to meet the eligibility requirements of the literacy component of the VCAL Literacy and Numeracy Skills Strand, the Reading and Writing unit must be completed at the award level or above. If using VCAL units to meet the eligibility requirements of the numeracy component of the VCAL Literacy and Numeracy Skills Strand, a Unit 1 numeracy unit must be completed. At Foundation level, Numeracy Skills Foundation meets the eligibility requirements.

Students may carry credit forward from the previous award level into the level in which they are currently enrolled. However, credits allocated at Foundation level (VCAL Foundation units, and VET and FE units at Level 1) cannot contribute to Senior Level. VCAL providers can include additional curriculum, such as the VCAL Literacy Skills Oral Communication units, other VCE units and FE accredited curriculum in a VCAL learning program, to meet the requirement for a minimum of 10 credits. At the VCAL Intermediate and Senior levels, the learning program must also include accredited VET curriculum components to the value of a minimum of one credit in the Industry Specific Skills strand. One credit is awarded on successful completion of 90 nominal hours of accredited VET curriculum. One credit is awarded on successful completion of 90 nominal hours of accredited FE/VET curriculum, or on successful completion of a VCE unit.

Upon successful completion, students will receive a VCAL certificate and a Statement of Results. Successful completion will be certified in July or December in each enrolment year. Additional Statements of Attainment
or certificates will be provided by the registered training organisation (RTO) for successful completion of VET or FE curriculum. Students who commence a VCAL program but do not complete it will receive a Statement of Results at the completion of each year of study.

**Curriculum options for meeting the VCAL strand requirements**

Satisfactory completion of the curriculum options in the following table is the minimum VCAL strand requirement. Note: The following information needs to be considered when reading the table.

**Further Education**

If Further Education (FE) certificates are used to contribute to VCAL strand requirements, these are allocated at certificate level only; this includes imported VET units.

**Completion of VET/FE Certificates**

While individual VET/FE units of competency may be selected for inclusion in a VCAL learning program, completion of the entire VET/FE qualification is not a necessary requirement.

The relevant registered training organisation (RTO) will provide advice on the selection of appropriate accredited units of competency/modules in accordance with the selected training package or curriculum document requirement.

**General credits**

VCE units that are included within a student’s VCAL program but which do not meet the purpose statement of any of the VCAL curriculum strands may contribute towards the overall minimum total credits required and/or minimum credits required at the award level.

The units Skills for Further Studies and Portfolio Enhancement and Presentation unit contribute to the Senior VCAL as general credits.

**Student eligibility**

Providers should check the Curriculum Strand Report and run eligibility reports in VASS to determine if or how units contribute to a VCAL strand and to ensure that the minimum requirements of the VCAL qualifications have been met.

Eligibility reports should be run as early as possible at the commencement of the academic year and every time a student’s enrolment is changed.

Individual student eligibility can be checked on VASS when students are enrolled in the learning program.

## 4 Themed VCAL course requirements

The Themed VCAL learning program is intended to lead to informed choices for a broad range of occupations in a particular industry sector. To be awarded a Themed VCAL, a student must successfully complete an Intermediate or Senior VCAL learning program that is made up of:

- accredited curriculum components leading to a minimum of 10 credits
- curriculum components that can be justified against the purpose statement for each of the four VCAL curriculum strands
- curriculum components drawn from VCAL units and VCE units
- VET-accredited curriculum or training package qualification or FE-accredited curriculum (one credit is awarded on successful completion of 90 nominal hours of accredited curriculum).

The Themed VCAL learning program must include:

- a minimum of two VCAL units*
- one credit for Numeracy Skills*
- curriculum components to the value of seven credits at the award level or above, made up of
  - one credit for Literacy Skills at the award level or above*
  - one credit for a VCAL Personal Development Skills unit at the award level or above
  - a minimum of two credits in the Industry Specific Skills strand made up of accredited VET curriculum components that are directly related to the industry theme designated in the learning program
  - a minimum of one credit for a VCAL Work Related Skills unit, which includes a structured work placement directly related to the industry theme designated in the learning program
  - two credits from the Personal Development Skills strand and/or Work Related Skills strand (in addition to mandatory requirements above) which are directly related to the industry theme designated in the learning program.
*Note: If using VCAL units to meet the eligibility requirements of the literacy component of the VCAL Literacy and Numeracy Skills Strand, the Reading and Writing unit must be completed at the award level or above. If using VCAL units to meet the eligibility requirements of the numeracy component of the VCAL Literacy and Numeracy Skills Strand, a Unit 1 Numeracy unit must be completed.

Integration of the industry theme across curriculum strands other than those listed is encouraged.

**Enrolling students in a Themed VCAL program**

Providers must obtain approval from the VCAA to deliver a Themed VCAL program. VCAL providers delivering the Themed VCAL will be required to enrol students in Themed VCAL through VASS. Students must be enrolled at either Intermediate or Senior level, with an additional industry theme appellation. This industry theme appellation will be included on VASS enrolment screens and on the student’s VCAL certificate.

**Atypical VCAL programs**

4.1 **Students with credit from the VCE**

Any VCE unit that has not already contributed to the satisfactory completion of either senior secondary certificate may contribute to satisfactory completion of a current year VCAL.

Students who have successfully completed the VCE and enrol in VCAL in a subsequent year will be required to meet the normal VCAL satisfactory completion rules as outlined in section 3.1.

4.2 **Adult students returning to study**

There are no formal VCAL entry requirements for adult students returning to study, and there is no variation in course requirements based on the age of a student.

4.3 **Student transfer and credit from interstate studies**

Nationally accredited studies that meet the VCAL qualification design rules, purpose statements and course requirements and that have been completed by a student prior to their enrolment in VCAL may contribute to the award. Students must apply to the VCAA through the Victorian provider they are enrolled with, using the Application for Credit towards the VCE/VCAL form.

5 **VCAL partnerships**

VCAL providers are encouraged to form cooperative partnerships with external education providers, businesses, community organisations and individuals. Partnerships will extend the learning program and resources available to VCAL providers.

VCAL partnerships provide advantages, such as:

- access to a wider range of opportunities to meet curriculum learning outcomes
- greater cost effectiveness in the delivery of VCAL learning programs
- better quality learning programs
- access to particular expertise
- provision of resources
- more innovative delivery and assessment strategies
- ready sources for structured workplace learning, excursions and guest speakers
- links to industry that focus on developing a student’s work readiness, mapping employment opportunities and identifying particular employment skills
• access to specialist organisations or individuals
• involvement in activities with a regional focus that may provide opportunities for VCAL students.

Successful partnerships usually include:
• a common purpose and shared vision
• open, clear communication from the beginning of discussions
• a culture of equality and cooperation
• clear understandings about how the partnership will be funded and what each partner will provide in terms of resources (including time, money, materials and equipment)
• clear guidelines about the roles and responsibilities of each partner
• a recognition of the different cultures that may exist between partners
• a belief that partner representatives can respect each other and work together
• a formal agreement (such as a Memorandum of Understanding) that clearly sets out the obligations of each party.

Funding or resourcing partnerships is the responsibility of VCAL providers. For example, a VCAL provider arranges:
• VET to be delivered by the local TAFE institute
• the delivery of the Certificate in General Education for Adults (CGEA), where the teacher is provided by the school, under the auspices of an Adult Community Education (ACE) organisation.

The Australian Quality Training Framework (AQTF) standards for RTOs include requirements for partnerships. If a VCAL provider that is an RTO enters into a partnership with another organisation to provide training and/or assessment services on behalf of the RTO, for qualifications under its scope of registration, there must be a written agreement with which the partners comply. The agreement must specify how each party will discharge its responsibilities to ensure the quality of training and/or assessment conducted under the agreement, and the RTO must maintain a register of any agreements.

How to build a VCAL partnership

The partnerships a VCAL provider may wish to pursue will be guided by the identified needs of VCAL students. Strategies that may assist providers to develop partnerships, if there is no existing relationship between the VCAL provider and an organisation or a group, include:
• contacting a Local Learning and Employment Network (LLEN)
• canvassing support through letters or telephone calls
• inviting key personnel or organisations to open days or events
• identifying the community of support to which a student is already linked
• exploring the networks linked to a student’s broader circle of relatives or support groups
• contacting group training companies
• joining a local VET cluster
• forming networks with other VCAL providers or education providers.

LLENs are established across Victoria and can provide support to VCAL providers, including:
• linking with industry and employers
• supporting partnerships and network arrangements
• supporting collaborative planning and delivery arrangements
• providing advice and information about post-compulsory initiatives.
Group training companies are not-for-profit organisations that employ apprentices and trainees, and connect them with employers. Many of these organisations are also RTOs that can provide training in nationally recognised VET qualifications. Most group training companies have close links with job networks and can assist with contacting employers and arranging structured workplace learning programs.
