## General assessment advice

Advice on matters related to the administration of Victorian Certificate of Education (VCE) assessment is published annually in the [VCE and VCAL Administrative Handbook](#).

Updates to matters related to the administration of VCE assessment are published in the [VCAA Bulletin](#). [Subscribe](#) to the VCAA Bulletin.

Teachers must refer to these publications for current advice.

The [VCE assessment principles](#) underpin all VCE assessment practices and should guide teachers in their design and implementation of School-assessed Coursework (SACs).

When developing SAC tasks, teachers should also refer to the VCAA policies and school assessment procedures as specified in the [VCE and VCAL Administrative Handbook](#) section: [Scored assessment: School-based Assessment](#).

The VCAA assessment principles determine that assessment at VCE should be:

- valid and reasonable
- equitable
- balanced
- efficient.

Essentially, these principles invite schools and teachers to create assessment practices, including tasks and instruments, that enable students to demonstrate their understanding of the outcome statements as well as the key knowledge and skills. These should be demonstrated through a range of opportunities and in different contexts (balanced) that do not advantage or disadvantage certain groups on the basis of circumstances (equitable). Assessment practices should not be overly onerous in terms of workload and time (efficient) and they should only assess that which is explicitly described in the study design.

The [glossary of command terms](#) provides a list of terms commonly used across the Victorian Curriculum F-10, VCE study designs and VCE examinations, to help students better understand the requirements of command terms in the context of their discipline.

VCE Media examination specifications, past examination papers and corresponding examination reports can be accessed from the [VCE Media examination webpage](#).

Graded distributions for graded assessment can be accessed from the [VCAA Senior Secondary Certificate Statistical Information webpage](#).

Excepting third-party elements, schools may use this resource in accordance with the [VCAA's educational allowance](#) (VCAA Copyright and Intellectual Property Policy).

### Units 3 and 4

#### School-assessed Task

The School-assessed Task (SAT) contributes 40 per cent to the study score and is commenced in Unit 3 and completed in Unit 4.

Teachers will provide to the Victorian Curriculum and Assessment Authority (VCAA) a score against each criterion that represents an assessment of the student's level of performance in achieving Unit 3 Outcomes 2 and 3, and Unit 4 Outcome 1. The recorded scores must be based on the teacher's assessment of the student's performance according to the criteria on pages 9-10. This assessment is subject to the VCAA statistical moderation process.

The 2024 Media assessment sheet on page 17 is to be used by teachers to record scores. The completed assessment sheet must be made available on request by the VCAA.

The mandated assessment criteria are published annually on the Media study page of the VCAA website and notification of their publication is given in the February VCAA *Bulletin*.

Details of authentication requirements and administrative arrangements for School-assessed Tasks are published annually in the [VCE Administrative Handbook 2024](#).

The Authentication record form on page 18 is to be used to record information for each student and must be made available on request by the VCAA.

The SAT has three components. They relate to:

Unit 3 Outcomes 2 and 3  
Unit 4 Outcome 1.

Teachers should be aware of the dates for submission of scores into VASS in July and November. These dates are published in the 2024 Important Administrative Dates and Assessment Schedule published annually on the VCAA website: <https://www.vcaa.vic.edu.au/administration/Key-dates/Pages/Admin-dates.aspx>

## GLOSSARY OF COMMAND TERMS

This glossary of command terms provides a list of terms commonly used across the Victorian Curriculum F–10, VCE study designs and VCE examinations.

The glossary can be used by:

- teachers across Foundation to Level 10 and VCE to develop internal assessment tasks and prepare students for tests and examinations
- examination panels in the development of assessment items for external examinations.

The glossary may be used in classrooms by teachers across all F–10 curriculum areas and VCE studies to help students better understand the requirements of command terms in the context of their discipline. Students may benefit from using the glossary in the context of questions and tasks they are working on as opposed to learning the terms in isolation.

It is important that the command terms are not interpreted in an overly prescriptive way. Teachers are reminded that study-specific nuances may elicit different kinds of responses to a given term as the term may carry a particular meaning within a discipline that is not necessarily represented in the glossary. For example, an 'evaluate' question will require a different response in Mathematics than it will in History.

The list of terms in the glossary is not intended to be exhaustive or limiting; other terms may be used if required and/or appropriate, allowing study-specific questions to be constructed. Additionally, not all terms in the glossary will be suitable for use in all disciplines and studies. Reference to the relevant curriculum and VCE study design is paramount when developing internal and external assessments.

When using command terms in the construction of assessment items, questions, tasks and marking rubrics, the following definitions may be useful in considering what the term requires students to do.

Term	Explanation
account of	Describe a series of events or transactions.
account for	State reasons for; report on.
analyse	Identify components/elements and the significance of the relationship between them; draw out and relate implications; determine logic and reasonableness of information.
apply	Use; employ in a particular situation or context.
assess	Make a judgment about; or measure, determine or estimate, the value, quality, outcomes, results, size, significance, nature or extent of something.
calculate	Determine from given facts, figures or information, obtain a numerical answer showing the relevant stages in the working; determine or find (e.g. a number, answer) by using mathematical processes.
clarify	Make a statement or situation more comprehensible.
compare	Recognise similarities and differences and the significance of these similarities and differences.

# Unit 3 Area of Study 1

## Outcome 1

On completion of this unit the student should be able to analyse the construction of media narratives; discuss audience engagement, consumption and reading of narratives; and analyse the relationship between narratives and the contexts in which they are produced.

To achieve this outcome the student will draw on key knowledge and key skills outlined in Area of Study 1.

### Key knowledge

#### Narratives

- the construction of media narratives in selected media forms
- how audiences engage with, consume and read media narratives
- the relationship between and the function of codes and narrative conventions to convey meaning in selected media forms
- appropriate media language.

#### Contexts

- the relationship between media narratives and the contexts in which they were produced
- the construction of representations in media narratives and how they reflect or challenge views and values of a specific context
- the ways in which audiences from different contexts engage with, consume and read media narratives
- appropriate media language.

### Key skills

#### Narratives

- analyse the construction of media narratives in selected media forms
- discuss how media narratives are constructed, consumed and read by audiences
- analyse the relationship between and the function of codes and narrative conventions to convey meaning in selected media forms
- use appropriate media language.

#### Contexts

- explain the relationship between media narratives and the contexts in which they were produced
- discuss the construction of representations in media narratives and how they reflect or challenge views and values of a specific context
- analyse the ways in which audiences from different contexts engage with, consume and read media narratives
- use appropriate media language.

# Unit 3 Outcome 1 Questions

# Questions – Key Knowledge and Skills

1. How many narratives should the students study for the task?
2. Narratives and Contexts- construction in media narratives. Would construction refer to the whole narrative (i.e three act structure) or can it relate to an element of the narrative? (ie the construction of a representation, construction of a genre, construction of a setting).
3. Unit 3, AOS 1: In VCE Media, would you categorize Acting as a Symbolic or Technical code?
4. Is the construction of representations as reflecting or challenging views and values linked to ideologies? Can we still discuss ideologies, or should I be breaking them down into the values that underpin them?
5. Key skills - Discuss how media narratives are constructed, consumed and read by audiences - could there be clarification around what is meant by audience construction? Is this construction of meaning or something else?

# Questions – Assessment task

- Can SAC 1A & SAC 1B cover the same content & outcomes?
- Unit 3 Media Video Essay, should it have an overall message that guides the analysis? What kinds of questions need to be covered in the SAC written response questions?
- Do you have a suggested word/time limit for the video essay/multimedia part of Unit 3 SAC 1?
- Can the U3 AoS1 performance descriptors for Narratives and their Contexts be split across the two tasks, or should both tasks address all performance descriptors
- Do you have suggested approaches to the video essay - do you recommend students choose one area to explore from a list of options or should all students be covering the same content to ensure consistency?

# Unit 3 Area of Study 2

## School-assessed Task

Assessment for VCE Media includes a School-assessed Task. The student's level of performance in achieving Outcomes 2 and 3 in Unit 3 and Outcome 1 in Unit 4 will be assessed through a School-assessed Task. The School-assessed Task contributes 40 per cent to the study score.

Outcomes	Assessment tasks
<b>Unit 3</b> <b>Outcome 2</b>  Research and document aspects of a media form, codes, narrative conventions, style, genre, story and plot to inform the plan for a media production.	<ul style="list-style-type: none"><li>• A research portfolio and accompanying documentation examining ideas, concepts and aspects of the selected media form.</li><li>• Production exercises with accompanying documentation that demonstrate a range of skills in the use of media technologies and production processes relevant to the student's concepts, intentions and the selected media form.</li></ul>
<b>Unit 3</b> <b>Outcome 3</b>  Develop and document a pre-production plan demonstrating the student's concepts and intentions in a selected media form for a specified audience.	A pre-production plan based on the concepts, intentions and the selected media form identified in Unit 3, Outcome 2.
<b>Unit 4</b> <b>Outcome 1</b>  Produce, refine, resolve and distribute to a specified audience a media product planned in Unit 3.	A media product for a specified audience developed from the pre-production plan produced in Unit 3.

# Scope and Nature of task

## Nature of task

As listed on p. 35 of the VCE Media study design

- A research portfolio and accompanying documentation examining ideas, concepts and aspects of the selected media form.
- Production exercises with accompanying documentation that demonstrate a range of skills in the use of media technologies and production processes relevant to the student's concepts, intentions and the selected media form.

Describes the task

Describes the scope of assessment for the task

## Research portfolio

A research portfolio that will include:

Investigation into narrative conventions, genre, style, story and plot of the works of practitioners to inform the students' production.

Investigation into codes and conventions used by media producers to convey meaning and engage audiences.

Exploration of audience characteristics including how audiences engage with and read media codes and conventions in works in the selected media form. Analysis and evaluation of how these references will assist the student in developing their own individual style.

Exploration of the use of technologies, equipment, materials and processes in forms relevant to the student's proposed media product that investigates techniques and develops skills in their proposed media form.

The exploration and research should include visual and written documentation and annotations.

## Production experiments

Each production exercise should demonstrate practical skills and include documentation that contributes to the assessment of Unit 3, Outcome 2. The documentation should use appropriate media language and terminology including:

### Intention

Demonstrated research of exploration and development of skills in a selected media form

Recording and documentation of the exploration of skills using equipment, technologies and processes appropriate to a selected media form.

Evaluation of the exploration and development of skills in a selected media form

Use of media language in documentation and evaluation.

# Unit 3 Outcome 2 task

On completion of this unit the student should be able to **research and document aspects of a media form, codes, narrative conventions, style, genre, story and plot** to **inform the plan** for a media production.

## Plan Unit 4, Outcome 1

### Final assessment criteria for a score out of 20

Unit 4 Outcome 1	7. Present a critique of the use of the Creative Practice from Unit 3 and use feedback and reflection to resolve a body of work
	8. Document, annotate and evaluate the refinement and resolution of the Body of Work

Paste your **Outcome 1, Unit 3 reflection** into your journal.

1. Create 2 new double page spreads to include loose and/or detailed drawings or storyboards to plan the resolved completion of this body of work in Unit 4.
2. Create a new mind map to identify key **concepts**, any additional **new inspiration**, list materials and processes to be used.
  - Include essential elements and principles that will be manipulated in your making.
  - Add any additional inspirational images *or* artworks that will build on and enhance your Outcome 1, Unit 4 body of work.
  - Include evidence of recorded feedback from your critique in your **planning** and/or **mind map**.
  - Evaluate your findings and address the most useful ideas in your **planning for a new body of work that is informed by your creative practice of Unit 3 and builds on your findings**.

These plans will be presented to the class early in term 3 after you have had time to create any required experimentation.

## Plan Unit 4, Outcome 2

Build on an area of your Unit 3, Outcome 2 skill development & experimentation.

### Final assessment criteria for a score out of 20

Unit 4 Outcome 2	9. Refine and resolve a Body of work using the Creative Practice.
	10. Resolve and present a Body of Work to communicate ideas and meaning to a viewer or audience.

1. Create 2 double page spreads of drawings & / or sketches to plan a finished, refined and **resolved presentation** of this body of work.
  - Include details about the **audience** for your creative practice, **where & how it will be shown** to your audience.
2. Create a mind map that includes **ideas, meanings, and inspiration** as well as a **materials** list and ideas for **display methods**.
  - Colour code and tag the various sections of the map for use of **interpretive lenses**.
  - Contextualise the concepts of this Body of Work.
  - You may need to add a page of art/ source material/ images that inform the completed presentation. Some of this content could be extracted and emphasised from your Outcome 2, Unit 3 research.

**During week 1, term 3: Complete & archive any necessary experimentation with materials that will enable you to begin production on the finished project. Due date for completion: End of week 3, Term 3.**
