OUTDOOR AND ENVIRONMENTAL STUDIES

Written examination

Monday 17 November 2003

Reading time: 11.45 am to 12.00 noon (15 minutes) Writing time: 12.00 noon to 2.00 pm (2 hours)

QUESTION AND ANSWER BOOK

Structure of book

Number of questions	Number of questions to be answered	Number of marks
4	4	86

- Students are permitted to bring into the examination room: pens, pencils, highlighters, erasers, sharpeners and rulers.
- Students are NOT permitted to bring into the examination room: blank sheets of paper and/or white out liquid/tape.
- No calculator is allowed in this examination.

Materials supplied

• Question and answer book of 15 pages.

Instructions

- Write your **student number** in the space provided above on this page.
- All written responses must be in English.

Students are NOT permitted to bring mobile phones and/or any other electronic communication devices into the examination room.

Instructions

Answer all questions in the spaces provided.

Question 1

Fire has played an important role in the outdoor environment of Australia, before and since human habitation. The Australian environment has been shaped by both natural occurrences of fire from lightning and from human intervention. While natural flora has adapted to the occurrence of fire, great emphasis in contemporary society is placed on minimising fire caused by humans.

In making a decision, government is obliged to refer to policy and legislation relating to outdoor environments.

Pristine Valley is currently classified as a state forest.

e. Discuss the possible impact on the valley if it was to become an alpine national park. Your response should address one key point in relation to development and one in relation to conservation.

Development

Conservation

6 marks

If a decision is made to prohibit logging, publicity surrounding Pristine Valley is likely to raise interest and result in an influx of visitors.

Question 3

Arcadia College is a medium sized school located on the outskirts of Melbourne. The student population has increased, causing difficulties with playground space.

A large area of council-owned parkland borders the school. This parkland consists of bushland and cleared land, including a creek and a few walking tracks. A signpost indicates that many years ago an Aboriginal community regularly camped on the creek.

The school has proposed that students have access to the area and that the council develop the parkland with better walking tracks, toilet blocks, concrete bridges over the creek, removal of some bushland in favour of grassy areas and playground equipment.

A number of local residents are opposed to this proposal and wish to conserve the parkland as it is.

- **a. i.** Describe how each of the following people would be likely to express their relationship with this land at the point of time outlined.
 - Aboriginals who lived here before Europeans arrived
 - settlers who ran sheep in the 1800s
 - contemporary residents who have lived in the area for ten years and visit the parkland regularly

Aboriginals
