

VCE VET Automotive

Get VET

During VET, I gained valuable life skills that have set me up for my new career.

MY VET SUCCESS STORY

SAMUEL

Full-time apprentice

Three words that describe VET:

Fun. Informative. Valuable.

Secondary school: Damascus College

Location: Ballarat

VET qualification:

Certificate II in Automotive Vocational Preparation

WHY I CHOSE VET

I chose to take up VET Automotive because I wanted a course that would provide me with the skills I need to be successful in my chosen field.

WHAT I GOT OUT OF VET

Through VET, I gained new skills and met a range of different people. But what I gained most out of VET were real-life skills, such as welding and how to disassemble and assemble a small engine. In learning these skills, I was able to enter the workforce with practical knowledge from day one.

MY VET SUCCESS STORY

During VET Automotive I was introduced to welding. I found this really enjoyable and this is what led me to choose fabrication for my apprenticeship the following year. The skills I learnt provided a good foundation from which I will be able to build a career.

MY ADVICE

I would say, if you are thinking about doing a VET, give it a go. You might discover an industry you hadn't previously considered, and find your future career.

MY PATHWAY

1

VCE
