

Appendix 5 – Checklist for observers

Checklist for observers during the McIntosh Family role-play:

- Is each family member responsible for a specific task?
- Is the allocation of these responsibilities sensible? For example, has taking Sylvie's age and arthritis been taken into consideration?
- Has the family planned for all four phases of preparing for bushfires?
- Have the McIntoshes decided to leave early or defend their property? How will this decision be made?
- If they are leaving, have they decided on what will trigger their decision to leave?
- If they are leaving, what have they decided they should take with them? Have they forgotten any essentials? Are they taking any non-essentials?
- If they are leaving, where will they go?
- Are they aware they can get further help from organisations such as the CFA or from local groups such as the local Community Fireguard Group?
- Have the McIntoshes forgotten any important details? What additional information will be helpful to them?
