

OPPORTUNITY COST

Shoppers make choices on how to spend their money.

When choosing a product, you give up an opportunity to buy something else with that money.

Opportunity Cost is the value of the next best choice/alternative you decided not to purchase.

INSTRUCTIONS

You have \$200 to spend on Kellie at the OC (Opportunity Cost) Shopping Centre.

1. Make choices as they are presented.
2. Choices will be collated at the end of Round 6.
